

Technician role profile

About the job

About Us:

Zymofix is a dynamic and innovative startup dedicated to fostering sustainable and circular agriculture. We specialize in creating innovative, effective, and economically viable microbial products designed to reduce farmers' reliance on agrochemicals while maintaining high levels of productivity. Positioned at the forefront of innovative and sustainable agriculture, we are committed in delivering cutting-edge solutions that empower farmers to cultivate healthy products and enhance their yields without resorting to chemical fertilizers.

Job description

We are looking for a **fermentation technician** with a critical mindset to join our team. The selected candidate will be responsible for production of micro-organisms at lab-scale.

The ideal candidate will have hands-on experience in performing microbiological work, performing quality controls and ensuring high standards of safety and quality.

The role requires strong technical skills, experience with microbiology techniques, and the ability to collaborate effectively with a multidisciplinary team.

Key Responsibilities:

- Performs and documents routine production of micro-organisms and QC analyses in accordance with established procedures and schedules.
- Accurately collects, records and reviews production data to ensure batch-to-batch consistency, promptly escalating deviations or atypical results to supervisors.
- Understands how test procedures and product specifications support smooth manufacturing operations, on-time release, and compliance with end-use and business requirements.
- Understands relevance of the test procedures and product specifications to the end-use requirements of the business.
- Adhere to safety protocols and maintain a clean and organized work environment.

Qualifications:

- Associate's or Bachelor's degree in Microbiology, Biology, or related field.
- Proficiency in handling and culturing microorganisms.
- Strong attention to detail and excellent organizational skills.
- You draw energy from collective success.
- Excellent communication and teamwork skills, verbal and written in English (Dutch is a plus).

We offer

- Competitive salary commensurate with experience.
- Opportunity to work in a dynamic startup environment with a talented and passionate team.
- Health insurance and other benefits package.
- Growth and career development opportunities within the company.

How to apply?

Interested candidates should submit their resume and a short cover letter outlining their qualifications and relevant experience to Wendy.Maddelein@zymofix.com

Zymofix is an equal opportunity employer and values diversity in the workplace. We encourage applications from individuals of all backgrounds and experiences.

Join us in our mission to facilitate sustainable and circular agriculture and be part of a team that is shaping the future of agriculture.
